

SHIVANI BHAKTA

FRONT-END DEVELOPMENT | FULL-STACK DEVELOPMENT

candidateshivanib@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

- Aspiring Front-end Developer targeting Web Development and Full-stack development roles.
- Showcased excellence in the development of Vue.js – A powered travel site.
- Proficient in the integration of dynamic themes using HTML/CSS and JavaScript and successfully cloned Google homepage.
- Skilled in the utilization of RESTful API for a reactive Weather app and showcased Vue.js expertise.
- Demonstrated diligent execution of CRUD website design & implementation and presented advanced JavaScript proficiency.

CORE COMPETENCIES

Web Development
Version Control (Git)

Front-end Development
Code Optimization

Full Stack Development

TECHNICAL SKILLS

JavaScript, HTML5, CSS, MySQL, MongoDB, Node.js, Vue.js, Git

PROFESSIONAL EXPERIENCES

English Language Teacher | EPIK

Empowering global education through impactful English teaching in South Korea.

Busan, South Korea
Sep 2018 – Jun 2020

- Increased engagement and provided real-world learning experiences to students.
- Created, and implemented comprehensive English language notes & lessons.

PROJECTS

Roaming New Routes | Designer/Developer

- Developed a dynamic and responsive website showcasing various travel destinations.
- Leveraged Vue.js framework to create seamless and engaging user interfaces, enhancing the overall user experience.
- Established a connection with an API to incorporate an interactive map feature, providing users with an immersive and personalized exploration of travel routes.

Google Homepage | Developer

- Successfully replicated the Google homepage using HTML and CSS, ensuring visual accuracy and responsiveness.
- Implemented advanced features such as a dynamic light and dark mode switch using JavaScript, enhancing user customization options.
- Demonstrated proficiency in front-end development by creating a pixel-perfect user interface and integrating interactive functionality.

Outfit App | Designer/Developer

- Implemented API integration, establishing a connection with a RESTful API for real-time weather data.
- Developed a responsive and dynamic web page to showcase weather information retrieved from the API.
- Enabled users to input specific locations and receive outfit recommendation based on weather conditions.

Address Book | Designer/Developer

- Developed a fully functional CRUD (Create, Read, Update, Delete) website using JavaScript.
- Implemented user-friendly features allowing seamless addition, editing, and deletion of contact details.

CERTIFICATIONS

- Certificate in Full Stack Web Development from Hamburg Coding School, Hamburg, Germany | Mar 2023 – Oct 2023

EDUCATIONAL QUALIFICATIONS

Master's in Fine Arts

University of Limerick

Sep 2022

Limerick, Ireland

Bachelor of Arts & Sciences

University of Memphis

Dec 2016

Memphis, TN
